

BUFT Celebrates World Environment Day 2016

BGMEA University of Fashion & Technology (BUFT) celebrates World Environment Day 2016 by arranging a workshop on “Application of Industrial Ecology Paradigm to Achieve Resources Decoupling: A Look through the Window of Sustainable Development” on 5th June 2016 in the BUFT auditorium. This workshop was conducted by Dr. Mohammad Sujauddin, Associate Professor. The essence of the workshop basically explained the philosophy of Industrial Ecology and its robustness to address resource and impact decoupling options to ensure an economy-wide sustainable development.

Dr. Syed Masud Husain, Vice Chancellor chaired the workshop and Prof. Dr. Engr. AyubNabi Khan, Pro-Vice Chancellor of BUFT also attended the event. After the key note speech was delivered by Dr. Sujauddin, both of Vice Chancellor and Pro-Vice Chancellor kindly delivered their invaluable speech highlighting the key theme of World Environment Day 2016 and addressed the mainstream environmental pollution and its magnitude. Dr. Husain, while delivering his conclusive speech, summarized the discussion of the workshop and motivated the audience to take part in the movement of Environmental Management at a greater extent. An interactive Q&A session added an extra dimension to the event.
